

WE'RE HIRING!

Internship Innovation Management

Are you a student who likes to work on interesting and complex projects? Do you want to work at a company where you can really contribute? Do you want to join a great team? We are looking for you!

Who are we?

We are a medtech start-up that radically changes ultrasound usage by improving and innovating the way ultrasound examinations are performed. We focus on creating new and innovative solutions for the ultrasound market by making ultrasound easier and more accessible for operators. We enhance current procedures and develop new ultrasound applications by using state of the art technology. This includes wearable & hands-free ultrasound solutions.

Background:

Usono is in the process of growing from start-up to scale-up. ProbeFix is now being sold in The Netherlands, United Kingdom, all Scandinavia and Australia. The next two years is all about bringing this product to the global market, as well as releasing new products to the market. Great analysis, strategy and execution is needed now. Both business and product creation as well as managing the innovation process are becoming more and more important to grow to a successful international operating company.

Assignment

Study: Innovation Management
Period: 3 months - 12 months
Level: Master graduate, PhD or PDEng

Goal

As innovation manager you'll work on challenges of finding the perfect global product lunch including proper business processes, service models, pricing models internationally. Next to this you could work on the supply chain to manage proper capacity of Usono to supply globally. This internship can be flexible to your own wishes and ambitions as long as they match our roadmap. We could go for a general global plan or for example fully focus on the United States or Asian market.

Who are you?

- You have basic knowledge about the ultrasound field
- You think out of the box and are pro active
- You are eager to work in a start-up environment
- You are not shy of performing other tasks as well
- You are able to work within a flexible schedule
- Quick learner
- A monitor and organizer

Skills

Change management

Interested?

You will join a young and dynamic team, where you will have responsibilities and get the opportunity to explore your boundaries! There is a great atmosphere and we often have team activities. We have flexible working hours and listen to your input!
